

# Anti-Zionism, Anti-Semitism: The Faculty Campaign Against the Jewish State

In recent years, there has been a growing movement on college campuses to boycott, divest from, and sanction (BDS) the State of Israel. This movement is often justified on the grounds that Israel is an apartheid state that oppresses Palestinians. However, as Alan Dershowitz argues in his new book, *Anti-Zionism, Anti-Semitism: The Faculty Campaign Against the Jewish State*, the BDS movement is actually a thinly veiled form of anti-Semitism.

Dershowitz, a renowned legal scholar and author, provides a detailed history of the BDS movement, tracing its origins to the anti-Semitic boycott of Jewish businesses in Nazi Germany. He shows how the BDS movement has been embraced by white supremacists and other anti-Semitic groups, and how it has been used to justify violence against Jews.

Dershowitz also argues that the BDS movement is based on a false understanding of Zionism and the Israeli-Palestinian conflict. He shows how Zionism is a legitimate national liberation movement, and how Israel is a democratic state that respects the rights of all its citizens, including Palestinians.

Dershowitz's book is a powerful and timely indictment of the BDS movement. He provides a clear and concise explanation of the history, goals, and tactics of the movement, and he shows how it is a threat to both Jews and the cause of peace.

Anti-Zionism, Anti-Semitism is a must-read for anyone who wants to understand the BDS movement and its implications for the future of Jewish-Arab relations.

4. The Tactics of the BDS Movement
5. The Impact of the BDS Movement
6. The Future of the BDS Movement

The BDS movement is a global campaign to boycott, divest from, and sanction the State of Israel. The movement was founded in 2005 by a coalition of Palestinian non-governmental organizations. The BDS movement's stated goals are to end Israel's occupation of the Palestinian

territories, to achieve full equality for Palestinian citizens of Israel, and to promote the right of return for Palestinian refugees.

The BDS movement has been endorsed by a number of prominent international organizations, including the United Nations Human Rights Council, the European Parliament, and the African Union. However, the movement has also been criticized by some, who argue that it is anti-Semitic and that it undermines the cause of peace.

### **The History of the BDS Movement**

The BDS movement has its roots in the anti-apartheid movement in South Africa. In the 1980s, a number of international organizations called for a boycott of South Africa in Free Download to pressure the government to end apartheid. The BDS movement was founded in 2005 as a similar response to the Israeli occupation of the Palestinian territories.

The BDS movement has grown rapidly in recent years. In 2014, the movement launched a campaign to get universities to divest from companies that do business with Israel. The campaign has been successful, and a number of universities have now divested from companies such as Caterpillar, Hewlett-Packard, and Veolia.

### **The Goals of the BDS Movement**

The BDS movement's stated goals are to end Israel's occupation of the Palestinian territories, to achieve full equality for Palestinian citizens of Israel, and to promote the right of return for Palestinian refugees.

The BDS movement argues that Israel's occupation of the Palestinian territories is illegal under international law. The movement also argues that

Israel discriminates against Palestinian citizens of Israel, and that Palestinian refugees have the right to return to their homes.

## **The Tactics of the BDS Movement**

The BDS movement uses a variety of tactics to achieve its goals. These tactics include:

- Boycotting Israeli products and services
- Divesting from companies that do business with Israel
- Sanctioning Israel
- Lobbying governments to support the BDS movement
- Organizing protests and demonstrations

## **The Impact of the BDS Movement**

The BDS movement has had a significant impact on Israel. The movement has led to a number of companies divesting from Israel, and it has also made it more difficult for Israel to do business with other countries.

The BDS movement has also had a negative impact on the Palestinian people. The movement has led to a decline in tourism and investment in the Palestinian territories. The movement has also made it more difficult for Palestinians to get jobs and to travel.

## **The Future of the BDS Movement**

The future of the BDS movement is uncertain. The movement has faced a number of challenges in recent years, including opposition from the Israeli government and from some Jewish organizations. However, the movement

has also gained support from a number of prominent international organizations, and it is likely to continue to grow in the future.

The BDS movement is a complex and controversial issue. There are strong arguments both for and against the movement. Ultimately, it is up to each individual to decide whether or not they support the BDS movement.
