Dr. Smith argues that the doctrine of Original Sin is a product of a particular historical context and that it has been used to justify a wide range of oppressive and harmful practices. He also shows how the doctrine has been used to support the idea of human depravity and to justify the need for salvation through Jesus Christ.

This book is a must-read for anyone interested in the history of Christianity, the doctrine of Original Sin, or the relationship between religion and violence. It is a challenging and thought-provoking work that will challenge your assumptions about the nature of sin and the role of Jesus Christ in human salvation.
