The book is written by Kenneth Frampton, an internationally renowned architectural historian and critic. Frampton has written extensively on Wright and modern architecture, and he brings a deep understanding of Wright's work and its historical context to this new biography.

Frank Lloyd Wright: Critical Lives is divided into three parts. The first part examines Wright's early life and career, from his childhood in Wisconsin to his formative years as an apprentice in Chicago. The second part focuses on Wright's mature work, from his early Prairie School houses to his later masterpieces, such as Fallingwater and the Guggenheim Museum. The third part examines Wright's legacy and his continuing influence on architecture and design.

Frampton's biography is a must-read for anyone interested in Frank Lloyd Wright or 20th-century architecture. It is a comprehensive and engaging account of Wright's life and work, and it provides a fresh perspective on his genius and his lasting impact on the built environment.
