Cortana

Cortana is Microsoft's personal assistant, and she's now built into Windows 10. Cortana can help you with a variety of tasks, such as setting appointments, sending emails, and finding information on the web. To use Cortana, simply click on the Cortana icon in the taskbar or say "Hey Cortana." Cortana is a great way to get things done quickly and easily.

Edge

Edge is Microsoft's new web browser, and it's designed to be faster, safer, and more efficient than Internet Explorer. Edge includes a number of new features, such as a built-in ad blocker, a reading mode, and the ability to write and draw on web pages. Edge is a great choice for anyone who wants a fast and reliable web browser.

Edge is Microsoft's new web browser, and it's designed to be faster, safer, and more efficient than Internet Explorer.

Windows Ink

Windows Ink is a new feature in Windows 10 that lets you use a digital pen or stylus to write and draw on your computer screen. Windows Ink includes a variety of apps that are designed for use with a digital pen, such as OneNote, Sketchpad, and Screen Sketch. Windows Ink is a great way to take notes, draw sketches, and annotate documents.

Other new features

In addition to the major new features listed above, Windows 10 also includes a number of other new features and improvements, such as:

- A new Start menu
- A new Action Center
- A new Settings app
- Improved performance
- Enhanced security

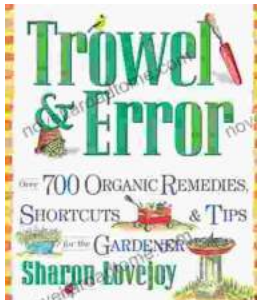

Windows 10 is a major upgrade to the Windows operating system, and it's packed with new features and improvements. If you're a Windows user, then you'll definitely want to upgrade to Windows 10. You can download Windows 10 for free from the Microsoft website.
